HYPNOKE TRAINER P.A SYSTEM

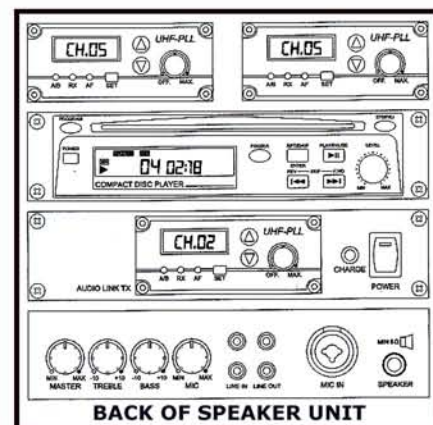

Introducing the **Hypnoke Trainer P.A System** which is designed for professional training personnel to communicate clearly and effectively with groups of up to 50+ people. This unique system runs on mains or from the built-in battery, has up to 2 radio mics and a CD player incorporated and links wirelessly to other speakers up to 300m apart. No complicated wiring, just switch on and go! Set up time under 5 minutes, with practice.

Whether for therapy, marketing or any associated teaching profession, the **Hypnoke Trainer P.A System**, provides a portable, compact and easy way for the trainer to arrive at a seminar or presentation and not be reliant on the host's facilities for voice amplification.

The Hypnoke Trainer (Model 3) offers the following benefits:

- *Mains or battery operation (4 hours running time on single charge)
- *80Wmax/50W RMS powered speaker system
- *Small and portable (12kgs)
- *Quick and easy to set up
- *Built-in "anti shock" CD player (see picture right)
- *Built-in high quality UHF 2x radio mic system (30m range)
- *Lightweight, headband radio microphone included (picture below)
- *Handheld radio microphone included (picture below)
- *2 input connections: 1 mono, 1 stereo
- *Adjustable talkover with bass and treble
- *Speaker can be linked to other speakers via unique wireless transmitter
- *Record out to your PC with supplied free software

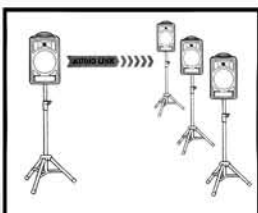

Trainer with
carry bag

The Hypnoke Trainer System's built-in rechargeable battery, with integrated automatic charging, makes it ideal for mobile applications at seminars, lectures and sales events. The easy to carry, practical, protective speaker shoulder bag can even be left on during operation.

Model 3 has two built-in UHF radio mics, allowing for various combinations: two mics for two trainers, or one trainer mic and one mic for audience participation.

For larger audiences, up to 3 additional speakers can be linked together via the wireless audio link, and you could also record your lecture to your laptop PC. Up to three speakers can be linked to the system.

Model 1: 1 built-in wireless receiver (no CD), with stand, carry bag and headset mic costs **£819.00** inc. VAT and UK delivery.

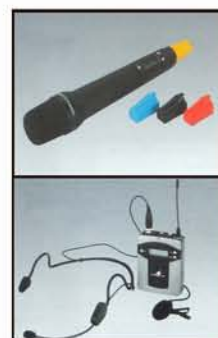

Model 2: 1 built-in wireless receiver, CD player with stand, carry bag and headset mic costs **£907.00** inc. VAT and UK delivery.

Model 3: 2 built-in wireless receivers, CD player with stand, carry bag, headset mic and hand-held mic costs **£1219.00** inc. VAT and UK delivery.

Slave wireless speaker: **£649.00** each with stand and carry bag

Hand held wireless mic: **£140.00**

Hypnoke Trainer has everything you need for a superior training seminar built into one small, portable unit. **Call today.**
